

Two "P.B.'s" Spell Economy

TWO PALM BEACH Suits cost no more than one good worsted, and they bring you variety in dress, as well as the maximum in style and comfort.

Every time a PALM BEACH Suit comes back from the laundry, it brings with it that same novelty and freshness that distinguished it the day you told the Clothier he might send it home.

—And when it's on its trip to the tub, it's nice to know there's Number Two waiting to be slipped on.

The Genuine, bearing the trade-marked PALM BEACH Label, is shown in every conceivable shade and a wonderful exhibit of smart patterns—At your Clothier's.

POLICE IN BAND
NEVER ON DUTY,
CHARGES UNION

Glee Club Brings Number of
Men Up to 152 at Cost
of \$243,000.

In view of the many holdups and robberies, members of the Musical Mutual Protective Union aver that the Police Band should be doing more policing and less playing for the public. With more than 7,000 members protesting, the union leaders declare there are 152 policemen in the band and the glee club who are devoting all their time to music and none to their work.

Figures compiled by the union show the band has 73 men and the glee club 80; that in 1918 the band appeared at 78 park concerts and many private functions; that in 1919 the bookings for the band in the parks number 63, besides many private affairs, and that the cost of the band on the police payroll is \$243,000.

"We have always done what we could to help the police band," said a member of the union to-day, "but it has reached a stage where the 152 members do nothing else but play. The music furnished by the band costs the city \$243,000. That same music can be supplied by our members for \$100,000 and we would have 153 more policemen helping to stop the crime wave."

"The records will show that in addition to the concerts and parades in which the police band appears the members have to attend at least nine rehearsals a month. We believe the band to be a splendid thing in its way, but the members of our union are not only paying heavy taxes for a police department, but are being deprived of our means of livelihood. The police band should appear only in its own parade, at funerals of its members and in patriotic affairs. It should not be sent to parks for concerts or to private functions, when the city so badly needs policemen."

Dr. Epitacio Pessoa, President-elect of Brazil, will be the guest of New York from this afternoon until to-morrow evening, when he will make a flying trip to Ottawa.

Dr. Pessoa will arrive in Jersey City at 3.30 o'clock this afternoon. He will be escorted to the police boat Patrol by members of the Mayor's Committee and landed at the Battery. The executive committee of the Woman's Auxiliary of the Mayor's Committee will entertain Mrs. Pessoa and her daughter at dinner.

NO INCREASE IN DISEASE.

Health Chief Sees No Danger From Returning Troops.

Nothing unusual in the way of disease has been noticed in New York as a result of soldiers returning from abroad. So said Acting Health Commissioner Monahan to The Evening World to-day in answer to a question suggested by the statement of Dr. Simon Flexner of the Rockefeller Foundation that "it is possible for men who have been ill during the epidemics in home or overseas camps to become carriers of the disease and the innocent source of a similar epidemic on their return home."

Dr. Monahan said the regular precautions taken by the Department of Health are sufficient to cover this ground.

NEW MARITAL LOGIC
IS OFFERED IN COURT

Witness Quotes: "If Husband Complains About Your Buying One, Buy Six."

Supreme Court Justice John M. Tierney to-day listened to sixty odd words of marital logic, as embodied in testimony of David Kraemer of No. 861 West 124th Street, in the case of Mrs. Blanche Denbosky of No. 464 West 144th Street, who is being sued for separation by Isaac Denbosky. The Denbosky establishment is said to do more than \$1,000,000 worth of business annually as a dress-manufacturing concern.

"You ought not to let like get off so easy. You ought to spend more money and give him all the expense you can. If he complains about buying one hat, buy six hats. If he complains about buying one pair of shoes, buy six pairs of shoes."

Kraemer testified in the affidavit that

these words were poured into the ears of his mother-in-law, Mrs. Blanche Denbosky, in his presence, by "a lady visitor."

The Denbosky's were married June 25, 1915. It was Mrs. Denbosky's second marriage.
